

GET TO KNOW ME!

ROGER STURGILL A believer in miracles!

Roger works for Service Steel as an IT manager, where he manages networks and three remote offices in NY, IL, and OH. This God-given ability, talent, and hobby has enabled him to be our visual and sound technician at NLIC, as well as creating our new church website, Facebook account, and blog as ministry tools to spread God's Word and lead people to a place where they can receive Jesus as their personal Savior.

Roger and wife Kelly of 19 years came to our church about 9 years ago. Kelly sings with the Praise and Worship Team for Sunday morning services and their son Ethan is a true testimony to God's miraculous healing. Roger told Pastor Kerce when

they first came to the church that he knew this was a healing church and God once again has proven this message in Roger's favorite verse;

But He was wounded for our transgressions, He was bruised for our iniquities; the chastisement of our peace was upon Him, and by His stripe, we are healed.
Isaiah 53:5

Two years this August, Ethan was diagnosed with a hole in his ear drum the size of a dime, and much deterioration of the ear bones, most likely from all of the ear infection he had as a small child. The ENT Specialist told the Sturgills that Ethan would need surgery to hopefully help with his hearing, and that he would need hearing aids for the rest of his life. During one of the Sunday worship services, Pastor Kerce called out for a healing that needed to be performed on someone's ears. At that moment, Roger left the sound booth and laid hands on Ethan's and began praying for that healing either to take place immediately or through the surgeon's

hands, whatever was God's will. Later, Ethan had surgery on his left ear with prayers going up on his behalf from his parents, family, and church, claiming God's healing. After several weeks the Specialist removed the packing and gave the hearing test, he could not believe the results, and even administered a second test to recheck the unbelievable findings. Ethan's left ear that had surgically been worked on was healed and had normal hearing **AND** his right ear which was require an hearing aid also had normal hearing. God had worked a miracle restoring his hearing and no hearing aids were needed! Praise the Lord!!!

Roger says, "Anyone who thinks miracles were only performed back when Jesus walked the earth, is wrong! My Lord and Savior still performs them today, I have the proof and I thank Jesus for His healing and grace!"
